Optiphos® WS

The Advanced 2nd Generation Phytase

OPTIPHOS[®] WS

The advanced 2nd generation Phytase Feed Additive.

Optiphos[®] WS is a new generation phytase for application in animal feeds. Optiphos[®] WS is microgranulated, coated form which protect the Optiphos[®] WS against the pelleting temperature during processing.

Composition :

Phytase ----- 750 000 FTU/gm

Indication :

1. By adding Optiphos[®] WS to the Feed, the phytate bound phosphorus which is about 70% of all phosphorus in plant source raw materials can be released in the poultry and animal.
2. The extra phosphorus, by adding inorganic phosphorus from Monocalcium or dicalcium phosphate, can be reduced.
3. Optiphos[®] WS improves the digestibility of the natural present Phosphorus from phytic acid in vegetable raw materials in feed.
4. This saves Feed costs, but also lower the output of phosphorus via the litter to the environment.

Directions for use :

Dissolve in water and apply the solution thus obtained to finished feed at the following incorporation rate:

Laying hens : 300 FTU per kg feed.

Other animal species : 500 FTU per kg feed.

Withdrawal Period : 0 days.

Pack Size : 5X4 kg bags in carton.

Storage :

In the original packing, well closed, in dry and well-ventilated facilities, protected from direct sun light.

Shelf life :

24 months from the date of manufacture.
